About Me

Final-year Computer Science student at **Islamia University Bahawalpur (IUB)** with 3+ years of experience in **web development**. I specialize in **front-end development, WordPress customization (themes & plugins), email development, and full-stack MERN applications**. My focus is on building efficient, scalable, and user-friendly digital solutions. I'm passionate about delivering modern, responsive, and custom-tailored web experiences for clients.

Education

BS Computer Science

Islamia University Bahawalpur (IUB)

2022 - Present

FSC (Pre-Engineering)

APS NMC Bahawalpur

2020 - 2022

Experience

Freelancer

2022 - Present

- Designed and developed **custom WordPress plugins and themes**, including booking systems, membership portals, and WooCommerce enhancements.
- Built and deployed **responsive websites and CMS solutions** for businesses across various industries.
- Delivered **front-end and back-end web development** services for dynamic projects and full-stack applications using the MERN stack.
- Created and optimized **HTML email templates** using MJML for compatibility across major email clients.
- Integrated third-party **APIs** and optimized database performance for scalability and efficiency.
- Achieved **Top-Rated Seller on Fiverr**, completing diverse projects in WordPress, custom web development, and email templates with consistent 5★ client reviews.

MERN Developer - Code Thinkers

2024 - Present

- Built and deployed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Designed and implemented dynamic and user-centric features, ensuring a seamless user experience.
- Integrated RESTful APIs to enable efficient communication between the front-end and back-end systems.
- Optimized application performance and scalability through database schema design and efficient coding practices.
- Collaborated with cross-functional teams to deliver robust and timely solutions for client projects.
